

DFA Design for Asia Awards 2020

DFA Design for Asia Awards 2020 – Grand Award

PANDAID (Project Location: Japan)
 Winning Company: NOSIGNER
 Company Economy: Japan

PANDAID is a self-run, nonprofit website created to save lives from the coronavirus pandemic by spreading awareness and sharing prevention tips in an easy-to-understand format. This project is about humanity crossing all boundaries and coming together to stand against the invisible virus with the correct knowledge of infectious diseases. In order to be published on the site, content must be (1) based on scientific fact, (2) presented in a way that is engaging and easy to understand, and (3) something that anyone can put into practice. Information is vetted by a diverse group of volunteers, including medical professionals, designers, and social activists. There are currently over 200 volunteers from ten more countries working on this project.

DFA Design for Asia Awards 2020 – Grand Award

Truck Art Childfinder (Project Location: Pakistan)
 Winning Company: Impact BBDO / Samar Minallah Khan
 Company Economy: United Arab Emirates

Every year, thousands of children go missing in Pakistan, most of whom are trafficked to various parts. "Truck Art" is a distinctive Pakistani cultural icon in which trucks across the country are customarily painted with floral patterns, animals, icons, and portraits of famous people, such as actors, sportspersons, military chiefs, politicians. The team comes up an idea of painting the last available photo of the missing children on the back of the trucks with a helpline number. So far, there are eight children have been found and reunited with their parents with the help of this project.

DFA Design for Asia Awards 2020 – Grand Award

	<p>Tainan Spring (Project Location: Taiwan)</p> <p>Winning Company: MVRDV B.V.</p> <p>Company Economy: The Netherlands</p>
--	--

Tainan Spring, a public space design transformed a former city-centre shopping mall into an urban lagoon, surrounding by young plants that will develop into a lush jungle and reconnecting the city with nature and its waterfront. The area hosts playgrounds, gathering spaces, and a performance stage, while some of the artful building concrete frames after deconstruction are left for converting to shops, kiosks, and other amenities in due course.

DFA Design for Asia Awards 2020 – Grand Award

	<p>Aranya Art Center (Project Location: Mainland China)</p> <p>Winning Company: Neri&Hu Design and Research Office</p> <p>Company Economy: Mainland China</p>
--	---

Aranya Art Center is an area that has a strong emphasis on the spiritual nature of the designers’ lifestyle ideology, an oneness with the environment. So the design scheme is as much about the internal courtyard, a communal space for the residents, as it is about the exhibition being displayed in the center. The building design attempts to encapsulate the natural wonder of water at its core. The scheme maximizes its outer footprint but carves out a pure conical geometry at the center with a stepped amphitheater at the base, which can be reconfigured and used in many ways.

DFA Design for Asia Awards 2020 – Grand Award

	<p>UCCA Dune (Project Location: Mainland China)</p> <p>Winning Company: UCCA Center for Contemporary Art</p> <p>Company Economy: Mainland China</p>
--	---

UCCA Dune is a museum that is nestled beneath a sand dune, with the building’s exterior largely covered by the surrounding sand. The building covers an area of 930 square meters, including seven indoor, three outdoor galleries, a cafe, and a reading room, with different cell-like shapes and sizes. It is conceived as an art and architecture destination, where exhibitions will unfold in dialogue with the building and its natural surroundings.

DFA Design for Asia Awards 2020 – Grand Award

Jewel Changi Airport (Project Location: Singapore)

Winning Company: Safdie Architects

Company Economy: United States

Combining an intense marketplace and a paradise garden, the Jewel moves past the current notion of what a transit-hub should be and creates a community-centric environment replete with civic plazas, markets, indoor gardens and waterfalls, restaurants, aviation facilities, a hotel and more. Based on the geometry of a torus, the building accommodates the programmatic needs for multiple connections in the airport setting. At the heart of its glass roof, it is an oculus design with water falls from five stories high through a primary multi-story garden. As the new centerpiece to Changi Airport, the design offers an interweaving experience of people, nature and commerce.

DFA Design for Asia Awards 2020 – Grand Award

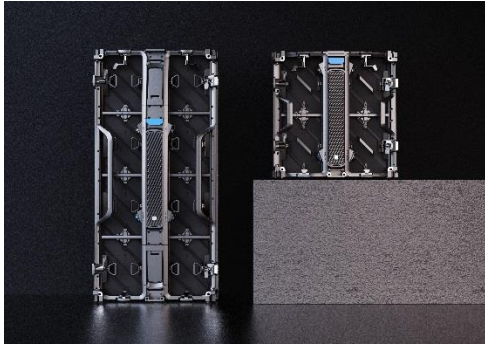

Longfu Life Experience Center (Project Location: Mainland China)

Winning Company: LUO studio

Company Economy: Mainland China

The Longfu Life Experience Center is designed and constructed with an environmentally friendly concept. Though utilizing common timbers and reversible construction methods, the whole architecture can be moved. Some of the units in the building are able to combine freely, which help to meet different functional needs at zero cost. Also, the architecture can be thoroughly dismantled, and the building materials can be reused for new constructions. Merely in 49 days, with common materials, processing techniques and ordinary construction workers, an efficient 1600-square-metre space can be designed, built and put into use.

DFA Design for Asia Awards 2020 – Grand Award

URMIII (Project Location: Mainland China, Hong Kong, Japan, North Korea, Singapore)

Winning Company: Unilumin Group Co.,Ltd.

Company Economy: Mainland China

URMIII is a basic component of giant seamless LED video wall, which can be assembled in a short time. It is designed for non-fixed places rental application. In LED rental industry, the disassembly and installation of the screen is very frequent and requires a lot of labour, while the hanging self-locking function of URMIII can achieve the true Single-Person Installation and save 1/3 labour. The module is designed in user-friendly way with booster handles, simple pull-back and precise positioning systems make it easier to disassemble modules during maintenance.

DFA Design for Asia Awards 2020 – Grand Award & Grand Award for Culture

time will tell / another mountainman x stanley wong (Project Location: Hong Kong)

Winning Company: 84000 Communications Limited

Company Economy: Hong Kong

Originally a solo retrospective show initiated by Hong Kong Heritage Museum, TIME WILL TELL, after six-year long planning, has transformed into a passionate cross-media project that includes exhibition, publications and various activity programs, taking viewers and participants on the evolution journey of another mountainman x Stanley Wong. The exhibition is presented in three individually distinctive blocks, showcasing parallel careers of Wong in the past 40 years while Hong Kong local culture and social issues are always important elements of his creations, this project is not only a presentation on process, but also a testimony of time, looking back at the development of local creative industry, as well as on a macro level, some of the changes and growth the city went through over the years.

DFA Design for Asia Awards 2020 – Grand Award for Sustainability

	<p>Thammasat Urban Rooftop Farm (Project Location: Thailand)</p> <p>Winning Company: LANDPROCESS</p> <p>Company Economy: Thailand</p>
--	---

Repurposing 236,806 sq. ft. of wasted rooftop space, the landscape architect helped Thammasat University envision and implement a climate solution with Asia’s largest organic rooftop farm—Thammasat University Rooftop Farm (TURF). Integrating landscape architecture with the agricultural ingenuity of traditional rice terraces, TURF creates an inclusive circular economy for the campus, incorporating sustainable food production, renewable energy, organic waste, water management, and public space for all. Utilizing on-site water management, TURF increases urban biodiversity through cascading plantations that mitigate flood risks by slowing down and purifying runoff, while growing food to feed the campus. Sharing traditional agricultural knowledge with urban dwellers presents an adaptive landscape solution to climate challenges, building a sustainable future for climate-vulnerable cities.

DFA Design for Asia Awards 2020 – Grand Award for Technology

	<p>Azurion 7 C20 with FlexArm (Project Location: Mainland China, Japan)</p> <p>Winning Company: Philips Experience Design</p> <p>Company Economy: The Netherlands</p>
--	---

Ideal for hybrid operating rooms catering to multiple specialties, this innovative image-guided therapy system offers unlimited imaging flexibility and intuitive control for interventional procedures. Powered by a unique smart kinematic engine, the system moves on eight different axes, all simply controlled using its single ‘Axsys’ controller. Simulation tests with clinicians have demonstrated the system’s potential to significantly reduce repositioning of patient, staff and equipment, improving access for minimally invasive procedures and reducing the risk of pulling off wires or tubes. It also delivers significant time savings.

Two Tier Award Types

Category Award

Judging panel will review all entries from open submission and confer Gold, Silver, Bronze or Merit awards to entries based on their different levels of design excellence for each category.

Grand Awards

Gold Award winners of each Category Award and outstanding design projects by nomination will be considered as candidates of the Grand Awards. Design projects that make the most extraordinary contributions will be granted the Grand Awards, Grand Award for Culture, Grand Award for Sustainability, Grand Award for Technology, and Grand Award with Special Mention.
